have we to hope for or desire than we have already? The people are free, absolutely free. No man is oppressed by the government.

A BR. Holman's Pad is no guess-work remedy-no feeble imitative experiment-no purioined hodge-podge of some inventor's ideas; it is the Original and Only Genuine Curative Pad, the only remedy that has an honestly-acquired right to use the title-word "Pad" in connection with a treatment for chronic diseases of the Stomach, Liver and Spleen.

By a recently oppressed by the government. A by the addit on of vegetable ingredients of newly-discovered remedial value and absortive ad ptability, Dr. Holman has greatly increased the score of the Pad's usefulness, and appreciably has just been elected to administer the laws for the next four years, and the people are satisfied that his administration will be wise patriotic, just and beneficent. He will be strong to defend the right and prompt to condemn the wrong.

Over the result of their peaceful decision at the ballot-box, the American people have just cause to American people have just cause to feel proud. There is, it is true, a spirit of intolerance in some localities, but, by kindness and firmness, this will be overcome and stamped out by and by; to be revived, we trust, no more forever. Again, we congratulate all the people upon the favorable circumstances by which they are surrounded, and again wish them a thrice merry Christmas!

If a majority of the members of the legislature should be of the opinion that the state debt should be settled on the basis of fifty cents on the dollar, the new bonds to bear only four per cent. interest, and that coupons should not be receivable for taxes, where would the credit of the state be? There is, doubtless, a strong party in the state in favor of that plan of settlement. Only two democratic papers in the state, so far as we have seen, and we have read most of them, advocate the policy of making the coupons receivable for taxes. If only onehalf of the debt is provided for, the rate of interest reduced one-third and no guarantee given that even that will be paid, will that be satisfactory?

But, we are met with the example of Georgia. We are told that Georgia repudiated outright a large proportion of her indebtadness, and that now her credit is as good as that of any state in the union.
